

**SPLH 824
DISFLUENCY
SPRING 2006**

Texts: Silverman, F., Stuttering and other Fluency Disorders. 3rd Ed. Waveland Press 2004
Murray, F. P., A Stutterer's Story. Stuttering Foundation of America, 2004

I. Definitions and Descriptions of Stuttering

II. Etiology and Development

Physiological	Neurological
Psychological	Learned
Organic	Genetic Basic
Semantic	Temporal Programming

ETC

III. Measurement of Stuttering

Intake Interview
Attitudinal Scales
Assessment Instruments
Counts and their Reliability

IV. Treatment/Clinical Management

V, For in-class discussion, each student will select one of the following “experts” in the field to report on as relates to I, II, III, and IV above. A “short” report on each individual will be prepared for distribution to each member of the class. The student will make a “short” verbal report to the class about the expert.

Adams	Goldiamond	Perkins	St. Louis
Barbara	Gregory	Ramig	Starkweather
Bloodstein	Guitar	Ryan	Stromsta
Brutten	Ham	Schwartz	Travis
Conture	Johnson	Shames	Van Riper
Costello	Luper	Sheehan	Webster
Eisenson	Martin	Shine	Wingate
Glauber	Murphy	Siegel	Yairi

There will be a midterm exam (30%) and a take-home final (40%). The other 30% of the final grade will be equally distributed among the in-class report, the written report and one (1) out of class assignment.
