We currently have a vacancy for an Educational Audiologist, part to full-time, in northeast Colorado.

Our agency provides special education and services to 12 rural school districts in the extreme northeast Colorado counties of Logan, Phillips, Sedgwick, Washington, and Yuma.

The position involves working with children, ages birth to 21, within the community and public school settings.

It is our intent to fill the vacancy with a knowledgeable, hard working, professional able to work collaboratively with the other members of our educational team.

The salary is competitive and benefits are provided.

The primary responsibilities of this position include:

- audiological assessment;
- referrals to special education;
- rehabilitation and instructional services;
- inservice training to classroom teachers, peers, parents, and other staff;
- on-going technical assistance to school staff regarding the function, use, and maintenance of specialized equipment and assistive technology.
