

Aloha!

On behalf of the Department of Communication Sciences and Disorders at the University of Hawai'i, I am pleased to inform you of the exciting opportunities that have developed in our program.

Our department is in the process of moving into a new location near the medical school campus, and we are looking to expand our faculty roster. We currently have two approved faculty positions that we are hoping to fill as soon as possible:

- Assistant or Associate Professor (Speech Language Pathology)
- Assistant or Associate Professor (Audiology)

Both positions have very competitive salaries and benefits. They are funded 50% by the university, and 50% via other sources. If you know of anyone who may be interested in any of these positions, please direct them to the following website:

- <http://workatuh.hawaii.edu/>
- Position Numbers: SLP position (82600), Audiology position (85304)

We have two more positions that are in the pipeline. One is a clinical instructor/manager position (minimum requirement is master-level SLP, anticipated to start Jan 2012), and the other one is an assistant/associate professor faculty position (minimum requirement is PhD, anticipated to start June 2012). We will update the information on our website at on www.manoa.hawaii.edu/csd. Please let me know if you have any additional questions or concerns. Thank you so much for your time and consideration.
