

University of Kansas SPLH Prerequisite Program

Recommended 2-Semester Plan of Study

Fall Semester

Complete the GRE

120 (4)

462 (3)

465 (1)

565 (1)

566 (3)

Total of 12 credits

January 15th: Deadline to apply to KU graduate program for that fall's admission

Spring Semester

571(4)

**568(4)

**463(3)

660 (3)

Stats or Science course if needed (3)

Total of 14 credits (or 17 if stats or science added)

**120, 463, and 568 are typically a 3-semester sequence. However, prerequisite students trying to complete the coursework in 2 semesters should take 120 in the fall semester and 463 and 568 in the spring semester. 568 can be pushed back to KU's graduate program, but in this option, students would add a course to an already demanding graduate curriculum. If at all possible, you are encouraged to complete 568 before the graduate program.

Possible 3-Semester Plans

FALL START

1st Fall Semester

120 (4)
462 (3)
565 (1)
566 (3)
Total of 11 credits
